Engineering Economics By Tarachand Engineering economics, previously known as engineering economy, is a subset of economics concerned with the use and "...application of economic principles" in the analysis of engineering decisions. As a discipline, it is focused on the branch of economics known as microeconomics in that it studies the behavior of individuals and firms in making decisions regarding the allocation of limited resources. Thus, it focuses on the decision making process, its context and environment. It is pragmatic by Engineering economics - Wikipedia • Engineering

economics begins only after the alternatives have been identified. • If the best alternative is actually one that the engineer has not even recognized as an alternative, then all the engineering economic analysis tools will not result in its selection. 3ECON 401:
