2005 Edition ... Police Call regional directories are the
most popular guides to the exciting world of VHF/UHF
listening. Each big regional guide is approximately 500
pages and also includes the national CD! The free, fully
searchable, nationwide CD-ROM Version 6, puts a
massive amount of information at your finger
tips. Police Call Radio Guides Widely Used Frequencies.
You'll find that most frequencies that are higher than
30 MHz are often assigned locally. But in order to
determine what frequency to listen in on a local fire
department police station you'll need to find a website
that features a database for frequencies that are used
per County or state. Learn How to Find Local Digital
Police Scanner Frequencies 39.46: Used for inter-
department emergency communications by local and
state police forces. 47.42: This is a channel used across
the United States by the Red Cross for relief
operations. 52.525: This is a calling frequency used by
ham radio operators in FM on their six-meter band.
During periods of exceptional propagation, this
frequency is filled with signals from hundreds or even
thousands of miles away. National Scanner Frequency
Guide - DXing To help you decide which frequency
ranges to search, compare the following listing of
typical services to the frequencies that your scanner
receives. These frequencies are subject to change, and
might vary from area to area. For a more complete
listing, refer to the "Police-Call Radio Guide including
