National Geographic Prehistoric Mammals Kindle Á This National Geographic book was fulfilled with lots of great illustrations, but admittedly had a fairly superficial treatment of the topic. It covered all of the usual suspects: mammoths, mastodons, wholly rhinos, saber-toothed cats, ground sloths, glyptodonts, etc. It also highlighted some less well-known prehistoric mammals. Prehistoric Mammals. Written by one of the world's foremost paleontologists, Prehistoric Mammals gives children a rare glimpse at a world gone by in a stunningly illustrated, incredibly comprehensive reference book. Much of its collection was seeded by Project Gutenberg back in the mid-2000s, but has since taken on an identity of its own with the addition of thousands of self-published works that have been made available at no charge.
