THUNDERJET INSTALLATION
INSTRUCTIONS ThunderJet™ is a jet-able, externally
mounted third fuel circuit that improves the
performance of 2-circuit carbs such as the S&S Super.
Unmodified, these carbs typically have a low speed, or
intermediate, circuit that supplies fuel from idle to
approximately 2500 rpm, at which point the carbs'
main jet circuit becomes active, delivering more fuel to
the engine. ThunderJets™ for S&S® E/B Carburetors To
test the main jet, do a roll-on from 50-mph to 70-mph
in 3rd gear. If the engine backfires or breaks up in the
carb, increase the main jet size .004". If the engine is
flat or will not accelerate, decrease the main jet by
.004". Since 2004 S&S shorty carbs have been fitted
with an adjustable main jet air bleed (#13). Carb Quick
Guide | S&S Cycle Ss Carb Thunderjet Installation
Instructions | Motorcycles ... Thanks Ray thats what I
thought, I have the prints on the 3 mods that zippers
do and thats what I want to do. The 3 mods are drill &
tap for the thunder jet, drill & tap for the external air
bleed, and finally add a cross drill hole at a 45 deg.
angle for the bowl vent (this is supposed to work better
than simply removing the vent plug method). Ss carb

thunderjet installation instructions| Carburetor Installation 1. Install the two 3/8-16x 1 1/4" SHC screws through the manifold and insulator block. The o-ring in the insulator block goes toward the manifold See Picture 4 2. Using a long 3/8" Allen driver, install the carb to the manifold. Torque to 10-12 ft-lb. 3. Install fuel line and fuel line protective cover with the ... Instruction 08-04-15 510-0378 S&S Cycle, Inc 14025 Cty Hwy ... Each complete carb kit includes: One S&S Super E or Super G gas carburetor One S&S teardrop air cleaner assembly One manifold Mounting hardware Fuel line, clamps and overflow line One extra intermediate jet and two main jets VOES tubing and additional hardware (when applicable) Installation and jetting instructions Chrome Plating the Carburetor Instruction Sheet No. 400 S&S Cycle, Inc. A large knurled knob with an index pointer makes adjustment easy. Each kit comes with complete instructions and necessary mounting hardware. Installation is easy and tech support is available. Power Jets and Thunder PowerJet. Power Jets have been around for a long time and are a great addition to any carburetor. Thunder PowerJet - Thunder Products Carburetion Performance ThunderJet™ is a jet-able, externally mounted third fuel circuit that improves the performance of 2-circuit carbs such as the S&S Super. Unmodified, these carbs typically have a low speed, or intermediate, circuit that supplies fuel from idle to approximately 2500 rpm, at which point the carbs' main jet circuit becomes active, delivering more fuel to the engine. These two circuits must ... ThunderJets™ for S&S® G/D Carburetors ThunderJets patented third fuel circuit delivers needed fuel to the engine only at

higher rpm (4,500 and up). Allows use of the main jet to tune for smooth, broad mid-range powersupplement the top-end with the ThunderJet. Jets are used to control the amount of fuel sent to the engine. Comes with complete installation/tuning instructions and... Zippers ThunderJet Kit for S&S E and B Carbs - Blue 113 ... + Plug for screw in Thunder Jet, now a bolt on! Available separately: Flange style intake manifolds for Ultima® motors 1.800" id port runner. 69-141 Ultima® 100/107/113 C.I. 69-142 Ultima® 120/127 C.I. 95-133 1.800" dia. intake to head O-ring seals (2 required) ... Ultima Carburetors - Ultima Products Add a carb recalibration kit, a good performance exhaust system (not drag pipes) and a 12-14 horsepower increase is normal. Twist the throttle and watch the hotrod-styled vacuum-operated butterflies mesmerize onlookers. ... Installation Instructions - 8376 Installation Instructions - 8446 Installation Instructions - 8464 Installation ... Standard Hypercharger™ | Air Cleaners | Performance | Kuryakyn If you've ever installed a ThunderJet®, you know the biggest challenge is the setup - getting the carburetor body to just the right angles to drill the holes. These fixtures take the hassles out of setting up to install the ThunderJet® by clamping the components at the correct angles for installation in a drill press or mill. ThunderJet Installation Fixture for S&S Carburetors | eBay Mounting the Carburetor Using 3/8-16 socket head cap screws - install from the manifold side and thread into the carburetor (figure 5). Check to make sure the lower bolt is not too long, making unwanted contact with the fuel bowl (figure 6). This could cause damage. If it does, then source a shorter lower

bolt. CARBURETOR Installation and Tuning - Ultima Products When Zipper's modifies a Super E or G carb we add our patented ThunderJet, an external adjustable main air bleed and modified float bowl. Included are additional ThunderJet and air bleed jets. ThunderJet™ is a jet-able, externally mounted third fuel circuit that improves the performance of 2-circuit carbs such as the S&S Super. S&S Super G carb with ThunderJet | eBay CP Performance is the world's leading marine mail order superstore for all your performance boating needs! We carry the finest selection of Performance Marine Parts, as well as a large library of technical information to help you get your boat working in the finest order! Marine Closed "Freshwater" Cooling Systems A tuned CV carb (without the thunderjet) will serve you right for many miles. Doesn't take any super expensive parts. If you've got a problem with the float sticking, then that's most probably caused by trash in the fuel line or degrading fuel line, etc. Thunderjet on a CV carb? | V-Twin Forum installation instructions installation instructions a96dfmv a jenn air installation instructions fel pro gaskets installation instructions instructions for tms trunk installation ss carb thunderjet installation instructions kitchenaid dishwasher installation instructions dynavin n6 e46 installation instructions Page 6/31.
