defined in Economics by Parkin and Bade. Its opposite is deflation, a downward movement in the average level of prices. The Influence of Supply and Demand on Inflation Inflation is the steady increase in the price of goods and services over time. It devalues units of currency (like the U.S. Dollar), resulting in consequences like higher cost of living. Think about how much a candy bar cost when you were a little kid. Now, think about how much that same candy bar costs today. Learn About Inflation in Economics: Definition, Examples ... There are two main causes of inflation: Demand-pull and Cost-push. Both are responsible for a general rise in prices in an economy. But they work differently. Demand-pull conditions occur when
